EXPERIENCE

2021-:	Work at Amazon < https://amazon.nl/ > as a Frontend Engineer. I was developing RDS Ops Console, which is a part of AWS. This console is only available for inner usage and needed to solve problems, related to the database instances of the AWS clients and related infrastructure. I have created frontend roadmap, implement code style control and build unit testing system with coverage control, add feedback mechanisms for the console consumers and many more.
2019-2021:	Work at Werkspot < https://werkspot.nl/ > as a frontend-developer. Help build a new front-end stack based on React and Next.js framework and continue migrating an application to this stack. Among other things developed the translations system, form management system, introduce grid layout, and participate in creating business-critical user flows. Help with hiring people. Work on company branding by representing the company on conferences and writing articles.
2017-2018:	Work at Template Monster < https://www.templatemonster.com/ > as lead frontend-developer. I have lead three teams with eight frontend developers located in Lviv, Mykolaiv and Kyiv. Participate in hiring people for these teams and mentoring. Take part in the creation of project architecture, including the frontend part of the project. We have transformed the project from the shop that sells products created in the Template Monster to the platform that allows anyone to sell media content. The platform was created ground up, with the new design system. Technical part included multiple REST microservices and was built with React with unique SSR solution. Huge work was done on performance optimization, including http2 push and use of the client-side cache.
2016-2017:	Work at VAIMO < http://www.vaimo.com/ > on projects BAUHAUS Sweden < https://www.bauhaus.se/ > , Jack Daniel's UK < http://store.jackdaniels.co.uk/ > , Jack Daniel's DE < https://www.jackdaniels.de/ > , Brown-Forman Australia < http://www.brownforman.com.au/ > , ONTIME < https://www.ontime.com/ > etc. Help building education processes inside the company. Participate in the introducing es6 to the company stack.
2015-2016:	Work as frontend-developer in projects of Areto Development < https://www.aretodev.com/ > , Vacay Kit < http://vacaykit.com/ > , 3 Way Talk < https://3waytalk.com/ > , Yoke Labs.
2014-2015:	Work as frontend-developer in projects of Aligned Code < http://www.alignedcode.com/ > , Binary Garage, Yoke Labs, CB Territory < https://territory.com.ua/ > .
2012-2013:	Development of Focal Point for Parallels Software
2012:	Development of Giftofoni
2011-2012:	Development of http://zn.ua/ and http://znaki.fm/
2011:	Working with Evil Martians < http://evilmartians.com/ > studio. Among projects are http://groupon.ru/ and http://i-lift.tv/
2010-2011:	Development of http://www.pokeroff.ru/

2005-2010:	<p>Projects development for advertising agencies R.A.M. and Paradigm Consulting Group</p> <p>Working with such brands as Pall Mall, Kent, Camel, Lays, Kinder, DreamWorks, MTv, Indesit, Samsung etc.</p> <p>Providing services as frontend-developer, flash-developer (drawing, animaton, ActionScript), designer.</p>
------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

EDUCATION

2000-2007	<p>National Technical University of Ukraine 'Kyiv Polytechnic Institute', Post-Graduate Study</p> <ul style="list-style-type: none"> • Specialist degree in development of electronic devices • Master's degree in computer science
-----------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

1990-2000	Physical & Mathematical School
